

# Senate Agenda

January 18<sup>th</sup>, 2016

## Opening

Call to Order: Vice President Holmes

Prayer

Pledge of Allegiance

Roll Call and Establish Quorum: Secretary Rojo

Reading and Approval of Minutes: Georgia Arnautou (Seconded)

## Communications:

1. Guest Speaker: Michelle Sutherland, Director of Technical Services
  - a. Michelle: Thank you for having me. I hope you have had an experience to use Office 365 for yourself. I have some usage stats. I want to make sure you all know the basics. Where to go for help and answer questions you have for me. I am 1 rep. from IS. We did have network expansion.
  - b. Office 365:
    - i. Portal.office.com is where you go to sign in and access apps. As well as access client apps. You can download latest version of office from portal. Anyone here that far? How many of you are mac users? How many windows? I'll show usage stats. What operating system use and what browsers. How many of you are using office 2013 on devices? For mac office on 11 or 16? What is really cool, in February coming is office 2016 for windows then maybe for first time in history we will have windows and mac on the same office at the same time.
    - ii. What's coming soon? The Moodle integration and classroom notebooks. You will have ability to pull up files from OneDrive and save to Moodle. As faculty start branching out to use notebooks. Another key feature and not necessarily obvious from portal is Skype for business. How many use Skype? With office 365 feature set we have it with business. It is integrated with contacts and group of people here in our office 356 instance. All features included. Online meeting, desktop sharing, video calls, etc. change for faculty as well, in the past we have been limited to webx as supported to tool for bringing guest speaker we can now explore Skype for classroom. All tied into that Skype program by default with faculty and staff.
    - iii. We went live back on 6<sup>th</sup>, around 11:00. How many people using mobile web on portal? Orange and red are more popular mobile means of connecting. We are getting more and more students using email on mobile devices. Dips on weekends. For us, this shows email flowing successfully; our customers are in there actively connecting up successfully. In the data it is great to see live date to all the way through now. Get answer for connecting. This is interesting. This shows usage. So this is showing number of connection through windows or mac os. Other is variation of mobile device. We can see nice split Mac os and Windows. Allows us to see types of device using. Expect connections to portal to expand. Mobile table and smart phone usage to go up. Predominant browser is chrome. With the migration it was students plus alumni that had Gmail accounts. We have about 5000 students and some newly confirmed and 10000 other accounts bulk were alumni and

- bucket of accounts to clean up. We have large number of accounts besides students account. This is the number for past 30 days.
- iv. How many found what needed on support website? Primary means of getting info to you. Houses FAQ and how to. You can provide feedback. Special inbox for feedback from users. If you still need help, you can stop by help desk with setting up mobile phones. Please visit them. I just like to know where to find more info of product and features. Lynda.com is a great source for office 365 or specific apps. We have lots of resources on Microsoft training center linked to on support site. There is the IS support site. Help sheets created. Getting started with OneDrive, file sharing and the like.
  - v. Want to make sure everyone familiar with installation. Have info on when to expect office 2016 and links for mobile device.
  - vi. Kat Miller: I just started running in problems, my email is too large, did it happened with Gmail? Why does that happen?
  - vii. Michelle: Typical 25mbytes file size limit. Very similar to Gmail. You can store it OneDrive and share it. File limits help keep email flowing and not bogged down.
  - viii. Georgia Arnautou: On mobile app focused and not, how split?
  - ix. Michelle: Algorithm Microsoft develops for that. You don have to have it do that. There should be an option to change that. I have found in own experience, that it tends to look at mail that might come from online retailers and put that into a category. I have one called newsletters does own algorithm for figuring it out. If that's not desired to uncheck the box.
  - x. Noah Sawicki: I ran into this problem where we have to uninstall office, word, excel PowerPoint, and when to install it I couldn't find where to install. Can't go offline to use word.
  - xi. Michelle: you installed for prep to install new ones?
  - xii. Noah: yes
  - xiii. Michelle: yes, that its typical, it will recognize what you have with the machine and need to remove it.
  - xiv. Noah: I tried to install from there and nothing back yet.
  - xv. Michelle: Please stop by and help desk but that should be fine. That isn't a common issue. Seeing something with account rights.
  - xvi. Edward Yan (Non-Senator): limits on installing, number of computers you can install?
  - xvii. Michelle: you can have up to 5 desktops, 5 mobile devices, 5 tablets
  - xviii. Edward: Keep working after UP? Or only here.
  - xix. Michelle: in process of redoing alumni licensing options. We have on campus licensing. Population of about 5000, when we purchase with that group, we get online version for same groups. We get email from alumni. We expect you have set time frame, 3-6 months with full licensing, then we would say certain part of licensing will expire but email continues. Alumni can't install apps. We are refining online apps and OneDrive. For certain you wouldn't be able to keep download rights of office apps. Wherever you go to work in future have something for you then have new licenses from work place
  - xx. Sabrina Mohammed: what if already have apps downloaded?
  - xxi. Michelle: we would let know that you have certain time left and then Microsoft let you know
  - xxii. Amanda Crowe: primarily motivation for changing from Gmail to office?
  - xxiii. Michelle: year long process of exploring for campus. There was great care and thought into decision. With respect for current situation, do collaboration with student and faculty as we were on separate platforms. Certain motivation is increasing and enhancing communication entire campus. We were prompt to explore it because it was a new offering on

campus and free offering of email and cloud apps we explored it. What it would do to on campus, what it would look like. We did research and found key benefit and this platform is used in many areas of postgrad work, business. Would help with work and technology preparedness. We took it to the council for enterprising services. That has provost, CFO, VP for Operation, and Director of Marketing and VP of Student Affairs. Having had privilege of taken part of process for improving and working with teaching and learning. It was a really thoughtful process on that front.

- xxiv. Amanda Crowe: you said first point was to improve communication, was there a problem with Gmail prior?
- xxv. Michelle: There was a barrier between student and faculty in sharing. You couldn't go across platforms due to rights of groups or file share. People would be using personal google drive and as a security person that worries me.
- xxvi. Jennifer Chipman: For Internet, when trying to connect multiple devices, one gets kicked off. Is this a common problem?
- xxvii. Michelle: you should be able to have more than 1 device one at a time, larger limit more than 2 I think.
- xxviii. Jennifer: Usually I try to have 3, but 1 will get kicked off.
- xxix. Michelle: I will take it back to network administrator.
- xxx. Michael Gallagher: some people have been having issue with calendar apps with emails. When wanting to add it to email it masses it group.
- xxxi. Maddie: comes in email, has date, then there's a list with everyone's name and it says send email to everyone and it wont let me know not to do that.
- xxxii. Michelle: usually schedule, and send it out, and organizer gets email but not everyone
- xxxiii. David: if I get invite and some other documents attached to that email if I accept invite that email automatically goes to deleted file. Is there a setting to change that?
- xxxiv. Michelle: That pretty much is default. File still attached to event in calendar.
- xxxv. Khalid: do you know why sometimes get new email and attach to old thread?
- xxxvi. Michelle: you could have conversation turned on. Depends on app. May be assuming part of prior conversation with subject line. Look at conversation settings. That's off top of my head.
- xxxvii. Khalid: Has happened multiple times.
- xxxviii. Grace: My old Gmail stuff is rethreaded with random emails. Intertwined emails, threads.
- xxxix. Michelle: I will take that to vendor to see how that is happened if can do anything to separate old emails.
  - xl. Khalid: Gmail folder empty and inbox integrated.
  - xli. Michelle: originally, or after old email, do you see any old email? In outlook app you should see Gmail section with folders that came over with Gmail. Sounds like we have both scenarios
  - xl.ii. Georgia: Sent email to someone and copied response multiple times and responses copied multiple times.
  - xl.iii. Michelle: Want to take them back to vendor.
  - xl.ii. Sammy: Searching for emails and I know they did response, in outlook I can see sent email but not responses. I don't think they migrated. All I can see what I sent not what I got back.
  - xl.ii. Michelle: if you think missing something from migration let us know so we can keep people informed. Change is really hard. A lot to manage

and of support. So anyway that is most important is communication. Send feedback and provide it. We will look into it.

- xlvi. Amanda Crowe: If we have constituents with further issues, email help desk?
- xlvii. Michelle: yes, the sooner the better. Last week we still had students had drive data come over. If missing drive documents let us know. Vendor looking at data matching and licensing. The next two week, the more input the better. Partnering with validation.
- xlviii. Maddie: when I go to reply the first option is reply all.
- xlix. Edward: When working on shared docs, couldn't see edit in real time, had to refresh.
  - I. Michelle: in office 365? what app?
  - li. Edward: Word online, had to keep refreshing.
  - lii. Michelle: WE have done a lot of playing around and we have had people done it and done collaboration. In 2016 with client app you will see.
  - liii. Edward: We did that and still couldn't change that.
  - liv. Michelle: something we will report. The expectation is that we see real time
  - lv. Jonathan Donkers: I explored rules to organize emails. I found I don't get notification about those folders. Is that normal?
  - lvi. Michelle: I haven't really played around with that, but I haven't necessarily looked at notification piece. Good question to capture to get out FAQ.
  - lvii. Georgia: Trouble with account going online
  - lviii. Michelle: Demo user? For some of demo user we need to do some special handling to clear out account. Microsoft holding on to demo account. So that's a specific issue to bring to help desk. We have extra support and resources we have vendor experienced with tech support with office 365. We just have extra level of expertise.
  - lix. Sabrina: When install app, it install individual incensing instead of business. Had to be on phone to update to business version. When longing on to OneNote or outlook wouldn't let me log on because individual licensing and not business licensing.
  - lx. Michelle: If portal have rights to apps.
  - lxi. Sabrina: I downloaded from there.
  - lxii. Michelle: Only thing I can think of if logging onto personal account. If I type in password. It will show which type of account. To use. Ask for personal or work or school account.
  - lxiii. James: Are we going to be using yammer?
  - lxiv. Michelle: part of education licensing. When we went to talk to leadership about wanting implemented they wanted file sharing, email, apps but right now interest is primary apps. If its something of interest you can explore it. And raise your voice and say something about it
  - lxv. Joseph: Creating groups to share files?
  - lxvi. Michelle: down the road exploring sites, to store docs and calendar. Right now issue with groups in office 365, with default permission set, we couldn't enable it because you could have freedom to create whatever groups and distribution list you wanted. We have certain mass email policy. That was a cautionary thing at this time to disable that. As soon as find way to create groups that can be administered that would be something we look at. Essentially when you share from one drive, you create a list, but would say if that's a key functionality you had, we would prioritize enabling that for you all. Goal not to lose functionality. Live work; group messaging, meetings, that type of things. If this is key feature for your collaboration with academic world then we need to hear from you about that.
  - lxvii. Michael: definitely key feature. Have to find old email with groups.

- lxviii. Michelle: I'm use to creating contact lists. I would create distribution based on contact list.
- lxix. Joseph: through contact you can create contact list.
- lxx. Grace: If I want to send an email from one person's email and copy and paste and send it a new email.
- lxxi. Michelle: that was a good common way. Maybe do a reply all.
- lxxii. Moises: if you go to options you can go to manage replies and you can switch from reply all to reply
- lxxiii. Michelle: feel like should have brought vendor in to answer questions right off his head

c. Network update:

- i. 2 providers on campus 2w and Comcast 1 gig on 2w and 500 mega on Comcast and now 1 gig on Comcast. Trying to stay ahead of you all on network usage. And that was it.
- ii. David: I know people wont know but a few years ago talk about cell tower amplifiers because I know not a lot of great service is basement or buildings.
- iii. Michelle: in building cell coverage, is hot topic in campus leadership. It is the most challenging areas for us to approach. We rely so heavily on carriers themselves and making investment on campus. Pursuit of antenna systems in buildings is a process. Conversations with at&t and version and slower than expected. Not much we can control. Meanwhile there is plan for a macro cell tower. Verizon still pursuing for campus. It's likely next summer we will get macro cell on top of Mehling. Gone through several levels of approval. The carriers are starting to release functionality of voice over Wi-Fi. At&t and iPhone 6 have ability to make calls over Wi-Fi. You should be able to find setting to use. T-Mobile have voice over WI-FI. Verizon is close to announcing something similar. They have gone to FCC for some regulations. Huge win but not necessarily for all coverage issues.
- iv. Khalid: I never get service in rec center.
- v. Michelle: because of nature of material of building the cell signals don't go through well. Being environmentally sound and coatings on windows to help with outside sun and heat. We know not good place for cell coverage. When we look at in building converge, rec center on list for getting that. Still prone to delays of working with carriers.
- vi. Joseph: next network extension?
- vii. Michelle: when first got here we were at 500 mega not at gig we have quadrupled it. When I started average device was 2.7 and now 5, projection is that it will keep going. No exact answer. And we are keeping track of that and projection of enrollment. Our goal is not to be as bad as fall 2013. I can't give exact date or expansion.
- viii. David: I know the IS and IT have gone through big changes the last few years. What's next on docket?
- ix. Michelle: this is huge change of major service, more development on front. Additional opportunities for features. Something as a campus that's strategically high on list is Business intelligence. Business analytics, they are going through process for organizational readiness. Looking to bring business intelligence to campus. How to know how students are doing, how to do early alerts. Requires a lot of development. We have a new CMS. The current public website will be slowly retiring starting in February. Moving to CMS. Whole new look and feel. That's huge undertaking. Much easier to update content on.
- x. David: would there be updates with pilots.up.edu with that page?

- xi. Michelle: not what I'm aware of. I can see there is potential with new CMS. I just know that this website prioritized because it is really old and difficult to maintain.
  - xii. Grace: what's the usage on Lynda.com?
  - xiii. Michelle: Sam Williams heads that up.
2. Visitor's Open Forum
    - a. Bryan Chipman: use to be senator, petitioning on hopefully next week.
    - b. Jonathan Donkers: I have been to couple meetings I am planning to petition for next meeting for engineering.
  3. Open Senate Positions: 1 Freshman, 1 Sophomore, 1 Junior, 1 Senior, 1 Mehling, 3 Off-Campus, 1 CAS, 1 Engineering, 1 Nursing, 1 Non-Traditional

## Reports

1. Executive Board: ASUP President Osman
  - a. Happy MLK Day. What are you doing for others?
  - b. Sorry for being late on Saturday and sorry for not being present. I was reading feedback. Negatives on visibility. Being more visible on campus. Shame that president wasn't present. Other one was what are you doing? Last semester focused on individual issues. Going to be working with service committee to make that to fruition. We ran on constitution stuff. Taking on website work. Abhinav was here and we will be working on that. Him and I will be working on updating that
  - c. Portland Trail Blazers internship fair. Tickets for fair gets you tickets for game. February 23<sup>rd</sup> at Moda Center.
  - d. Last week we started interviews for new associate VP position. 5 students me, Anthony, Krizchelle, David, Temo, someone from SFRC. We have a few meetings.
2. Treasurer's Report: Treasurer Zabinski
  - a. Update eon budget from fall '15. A few more transaction to track down. As of tonight we have 189085.49 of pent budget. 77% budget spent which is pretty great. Been pretty consistent with our turn out..
  - b. We will have to have discussion about the sweatshirts, the order was never processed. Never printed or delivers. Reorder or just not get them
3. Campus Program Board: Director van den Berg
  - a. On Friday morning, went to crystal ballroom. Went well!
  - b. Met with Jeff Rook about fire permit for RTB.
  - c. Tomorrow meet with Gerry Gregg.
  - d. We have movies this weekend. Friday Mockingjay part1 at 9pm in BC AUD Mockingjay pt. 2 10pm in BC AUD
  - e. Cosmic tubing: 27<sup>th</sup>. It will be approx.. 5:30pm-11:00pm. 6 buses. Approx. 300 people can go. Those will be loading outside of BC at 5:30 but leaving at 6:00pm. We will be taking attendance based off of purchases. Buses leave around 9:45pm and be back around 11:00pm. Tickets on sale on Wednesday. At student activities. 8:30-6:00pm and on Friday 8:30-5:00pm. Cash and card \$10. When you go to buy tickets. You get ticket you sign up on a bus roster and that is basically signing there confirming you agree to waiver. Tell people you cannot buy tickets for someone else. Bring student id. You wont necessarily be able to ride up wither everyone you want on bus. Not making a bunch of switches for people.
    - i. Brett Wadsack: when do they open?
    - ii. Sammy: this Wednesday?
    - iii. Kevin Truong: are there earlier buses?
    - iv. Sammy: nope. They are charter buses. Movie both directions.
    - v. Noah: certain time slots
    - vi. Sammy: all day in student activities as long as totally open. \$10 price include pizza buffet and transportation. This is a huge deal. Event on FB.

- f. Sammy: why guests not allowed at cosmic tubing? The waiver process is a lot more complicated. We only have 300 spots. Students get priority as student government fees.
    - i. For dance how does waiver process works?
    - ii. When you buy ticket on back is the waiver.
    - iii. Georgia: when you get on bus do you have to have student id with you
    - iv. Yes. If you lost ticket, we do have check in table to check that. If you don't know where, go to check in table.
    - v. Amanda Crowe: if you do have 10 friends that you want to with, is it more likely better to go in and buy it together.
    - vi. Yes
  - g. I haven't gone over feedback.
  - h. We talked briefly about relay for life team; we want to let you all decide if ASUP want to do your own of if a combo with CPB.
4. Secretary's Report: Secretary Rojo
- a. Thank you for your participation in the Senate Refresher. Shout out to John and Annie for all your hard work.
  - b. Happy Martin Luther King Jr. Day!
  - c. What is the Secretary's Report? A chance for me to share with you all what I have been up to in the past week as well as to know what is coming up. During my week, I also get in a lot of information from clubs, departments, and other students about events and opportunities to participate in the UP Community. If at anytime you have suggestions or thoughts for what to include in my reports please let me know. I tend to share info from the areas I hear it from, so please feel free to share info with me.
  - d. If you are interested, this week in Internship Awareness Week. There are varieties of ways to get information about internships and internships are a great opportunity to get real experience in your interested field.
  - e. With the special election coming up, I am going to ask for the help of you all! I do not want to exhaust the elections committee with 2 elections in one semester, so I am going to ask for the help of you all to help run the election stations during the special election. The only senators that I ask refrain from participating are those in the constitution committee as their would be too much bias.
  - f. I will be working with my team as well as some senators to set up dates for senate dinners around meeting dates that aren't super super busy.
  - g. We have a petitioner in today. I have placed her application; please review it before she goes up.
5. VP:
- a. For senate evaluations we will go through next week.
  - b. In my feedback: primarily things focusing on sending more emails and getting in touch with committees more often. The meetings are too lax. That was determined at senate retreat. I will continue running meetings this way.
  - c. HR Panel happening. Learn more about interview questions. In BC AUD at 7:10
6. University Committees
- a. Internal Affairs – Annie Rodriguez
    - i. Grab articles.
  - b. Outreach – Terrance Lewis
    - i. Sam got touch with Jim Kuffner and he will be speaking with UPNA meeting next week. We are hoping to address goals of having BBQ with UPNA. I emailed Laurie Laird to talk about service. I go this shirt I signed up for Moreau Center emails.
    - ii. Grace: UPNA has BBQ you might want to work to readjust the time frame. Maybe run some interference to make it so that students attend.
  - c. Student Affairs – McKenzie Strickland
    - i. Grace: working on how she will chair this, without attending this meeting

1. Maddie: we have meeting with residence life.
- d. Campus Affairs – Noah Sawicki
  - i. I have been emailing with Margaret trout before break and coming from break, she wants to meet with health advisory board. I will send out email. We can test out new office 365 calendar sharing thing. Also I have student health advisory board meetings next Thursday.
7. Constituency Reports
  - a. Jennifer: Soy sauce in the commons.
  - b. Anthony: Ice cream bars in max market.
  - c. Amanda: Use to use walkers in cove a lot and would like to see them again.

**Old Business:**

Grace: Thank you all to those that came this weekend. Filing out tax forms from 8:30-4:00pm we appreciate it. Constitution committee thankful. Our vision through your free labor. We genuinely appreciate that. I appreciate work that was done. Recognize work of Annie and John. Getting closer to passing through vision.

**New Business:**

1. Constitution Reintroduction
  - a. Grace: Please take to the constituents. If you don't take it out, just as bad as not changing. Today is not the day we are passing through
  - b. Georgia: Is there an easier way to get it out to people.
  - c. Grace: Do you want email?
  - d. John: these are mostly changes to article. I can come up with something with Joseph.
  - e. Grace: At end of the day, you will have idea of what's changing way and why. See structural changes and what's going on. Explain thought process in forming document and more contentions things still up in air.
  - f. John: Main goal was to look at how's schools changed over years and address needs. Exec board and senate more effective with student body. As we moved through. These sections and articles, they are mostly people had issues with at constitution retreat. Make it something all of us could be proud of.
  - g. Annie: These sections were the 3 biggest areas. The Exec board structure, size of senate and responsibility and election process.
  - h. John: I expect us to really change this because huge contention over issue at last retreat. Have everybody voice in senate heard. I expect to hear about that area.
  - i. Annie: after special elections happen, we are planning setting multi year plan on changing it. Just talk to committee members or us. Focusing on this right now.
  - j. John: during last meeting, missing things are in by-laws as opposed to constitution.
  - k. Grace: you can change by-laws as a senate. You cannot change constitution without having election.
  - l. Jennifer: I feel personally that a lot of changes being made haven't really changed anything. We have moved some jobs around and created speaker of the senate. But not much change overall probably could still use overhaul. We talked about smaller but still 2 per class and lots per class. I feel like we haven't done enough. I am note sure if accomplished that.
  - m. John: these are sections that people commented on. I would have liked other feedback earlier. We want just get rid of a bunch of senate positions. We tried to work it out so between 12-20. Right now at 17. Spot we could get to with odd numbers but a good amount of senators.
  - n. Jeromy: do you see this as constitution change package or listing as subtopics, could make difference in how student body views changes. If 1 package not as much voice, if 3 packages more voice.
  - o. Annie: I saw it all as one whole constitution change.

- p. John: when you look at constitution you see a lot of administrative stuff, we are changing methodology, E-board, senator elections, senators. Focusing on 20-page document and looking for way to update senate and executive board for more effective for students. We are doing everything so that we are better for them and more relevant for them.
- q. Kat: we are not the founding the fathers; we don't claim authority but he have had conversation about this. If you have questions just ask, its not like we were like lets change for sake of change. Goals of this year we to create constitution but we tried to have philosophical reason for it.
- r. John: I definitely expect amendments.
- s. Brandon: For the president and VP, concerned for why not prior experience to senate?
- t. Grace: from my position, for externally facing political role. Being at UP, more important to be student regardless of being senate. I don't think senate did anything to prepare or not prepare for position. A lot influence came from me for VP stuff. Don't need senate experience to talk to admin but just need to be student.
- u. John: basically those 2 positions we want to them to be pure voice of student body. Give them freedom to choose voice regardless of senate. Our vision for Eboard is to have President and VP have more external roles.
- v. James: confused of speaker of senate on exec board.
- w. John: They are part of Exec Board but not a voting member
- x. Bryan Chipman: as a senior accounting major, auditor independence, its important talking about reassure as a role. They should be appointment the people. It is oing to be independence. They are handling a couple 100,000s people. They should be selected by student body and elected.
- y. David: I have very little control over what clubs do and don't get money.
- z. Bryan: I think it's important that the treasurer is elected to maintain independence. We do collaborate as a team on FMB.
- aa. Grace: Allen Timmins received paycheck from university and was appointed. I don't thing internal controls is sufficient. How do we monitor activities of treasurer of FMB? Maybe working with John and Annie to create auditor. The role of treasurer elected or not is independent. Independent body for FMB.
- bb. John: As far as elections go I want you to all look at that. I am sure we will be fighting to the nail about that.
- cc. Annie: we are still accepting suggestions.
- dd. Grace: timeline...
- ee. Khalid: I would like to pass it next Monday for meetings with University President.
- ff. Grace: we can call emergency senate meeting. I know we are
- gg. Jennifer: is it possible to suspend reports?
- hh. Kat: Yes we can.

## 2. Petitioner

- a. Kelli: I am a sophomore here petitioning in for Mehling hall. I wanted to become more involved and I'm good friends with some senators here. I think its great work representing student body. I want to be more involved with Mehling. Last year didn't have that good of a community feeling in hall and now better relationship. I want to come in leadership position. Help be more involved in outreach.
- b. Georgia: Super powers what would it be?
- c. Kelli: invisibility. You can get away with a lot. Be really cool.
- d. Kevin: You have contributed a lot to our meetings and retreats. What would you say you have contributed
- e. Kelli: worked with constitution, coming from outside perspective. What students are looking for? What student outside of senate would think in voting or feeling?
- f. Natalie: coming from outsider, what's your idea of it.

- g. Kelli: before saw a lot of involved from campus activities. Seeing what each person does, seeing how complicated it was. I saw how much work you have with administration specifically and generally constituencies. I saw a greater access to outreach.
- h. Michael: what are some experiences, like REX for instance that you could apply to Mehling?
- i. Kelli: For REX, we are working with a great variety of people. Working with other volunteers. In terms of hall meetings or RA, using leadership skills working with others. Making sure they are having a good time and asking them and talking to them. Enjoying themselves or what you could do to improve day and community.

### **Open Forum**

David: do you have any strong leaning about the sweatshirts?

Georgia: been waiting so long for them.

Michael: I would wear sweatshirt rather than shirts

Jennifer: just the people who wanted them could decide if want them.

Kat: kind of unfair to them they ordered them.

David: I'll redo order list.

Sammy: if at all interested in CPB meetings Tuesday nights at 8pm Franz 120. Straw poll, how many interested in ASUP specific relates for life team. APRIL 16<sup>th</sup>.

Jeromy: Student activities hosting immersion for hockey game. Hawks vs thunderbirds. February 5<sup>th</sup>.

Sammy: if you don't want to spend the money, Carnival is happening February 5<sup>th</sup>. Collaboration between MeCHA, CPB, International club, and ILC, it's a really fun event. Live music free food.

Michael: Internal outreach: working on connecting with student body. Senate in a minute.

Chewing over ideas on fostering ideas of communication.

Georgia: External outreach, box top connection. Getting box tops

John: Annie and I got email about showing students idea of getting word out about constitution.

Annie: feel free to email me about this.

### **Adjournment**
